FULL DESCRIPTION OF SITE (including topography, adjacent land use, boundaries etc.):

This pond is within the Neville Hall hospital grounds, consisting of two ponds 150m apart with amenity neutral grassland with trees.

The large pond is 95% open water with stands of *Typha latifolia* and *Iris pseudocorus* on the margins. There are large mature and overhanging trees on the banks. Particular note is the large veteran black poplar on the south bank.

The smaller pond to the west is dominated by emergent vegetation including *Glyceria fluitans*, *Iris pseudocorus*, *Sporogonium erectum*, *Alisma plantago aquatica*. This pond connects to the River Usk via a small stream. River Usk is a SSSI and SAC.
