

Gwent Wildlife Site/SINC Notification Form

SITE SUMMARY

SITE NAME: **Woodbine Cottage, Coed Morgan**

GRID REF: **S O 3 5 3 1 1 2**

SURVEYOR(S): **Andy Karran**

SIZE (approx.): **1.48ha**

DATE OF SURVEY: **8th Julv 2020**

LOCAL AUTHORITY AREA:
Monmouthshire

WARD: **Llanover**

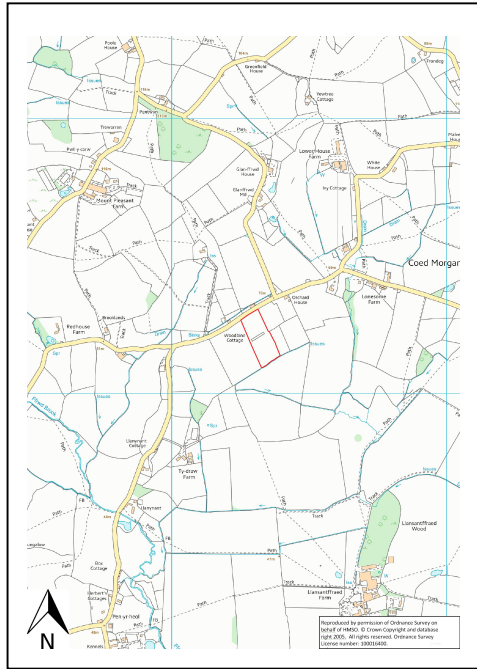

MAIN HABITAT TYPES PRESENT:

Habitat types	NVC type	Area (ha)
Species Rich Grassland		

LBAP PRIORITY HABITATS/SPECIES PRESENT?

Species-rich grassland

SKETCH MAP OF SITES LOCATION:

FULL DESCRIPTION OF SITE (including topography, adjacent land use, access and boundaries etc.):

Two fields that are divided by a narrow, fairly recently planted wooded strip. The fields are bordered by species-rich hedgerows, with many trees within the hedge on the eastern boundary. The fields slope gently downwards to the south.

The fields are very species-rich and impressively flowery. They are neutral grassland, managed as Hay Meadows, but have evidence of a slightly damp nature, particularly the more southerly field. There is a good grassy sward with many finer grass species such as Sweet Vernal Grass, Crested Dogstail, Red Fescue and Common Bent, however the fields are notable for the high herb to grass ratio. Indicator species are numerous, both those of Neutral Grassland of which Common Knapweed (*Centaurea nigra*) is particularly numerous, along with much Red Clover (*Trifolium pratense*), Birdsfoot Trefoil (*Lotus corniculatus*), Tufted Vetch (*Vicia cracca*), Lesser Stitchwort (*Stellaria graminea*) and also Marshy Grassland, but generally in lesser numbers. Marshy species such as Meadowsweet (*Filipendula ulmaria*) and Sharp-flowered Rush (*Juncus articulatus*) are at least locally frequent in the more southerly field however.

The abundance of Southern Marsh Orchids (*Dactylorhiza praetermissa*) is particularly notable and also the presence of Adder's Tongue Fern (*Ophioglossum vulgatum*) (not seen during survey, but reliably reported).

Neutral Grasslands Indicators = Field 1 = 18, Field 2 = 14, Overall = 20
Marshy Grasslands Indicators = Field 1 = 15, Field 2 = 12, Overall = 18

Official Use Only: Site selected as a Wildlife Site/SINC? YES NO Date: 9/2/21

DETAILED SITE INFORMATION

SITE OWNERSHIP: Including names of any tenants/graziers Name(s)

Name(s)	[REDACTED]	
Addresses	[REDACTED]	
Tel.no.	[REDACTED]	Mobile: [REDACTED]

Please log all landowner/tenant contact starting from the initial permission for access to survey

Date	Contact	Discussion subjects/decisions made
[REDACTED]	[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]	[REDACTED]

Is/are the owner(s)

i) aware of the site's nature conservation value?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>
ii) managing the land sympathetically?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
iii) willing to manage the land sympathetically?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	

Describe the access to the site:

Through gate opposite side of road from garden of property.

Are there any public rights of way on the site?

No

If so please describe their location:

No

What is the current management at the site?

Managed as Hay Meadow.

Are there any threats to the site?

None noted.

Are there any invasive species present?

None noted.

Are there any protected species present?

None known

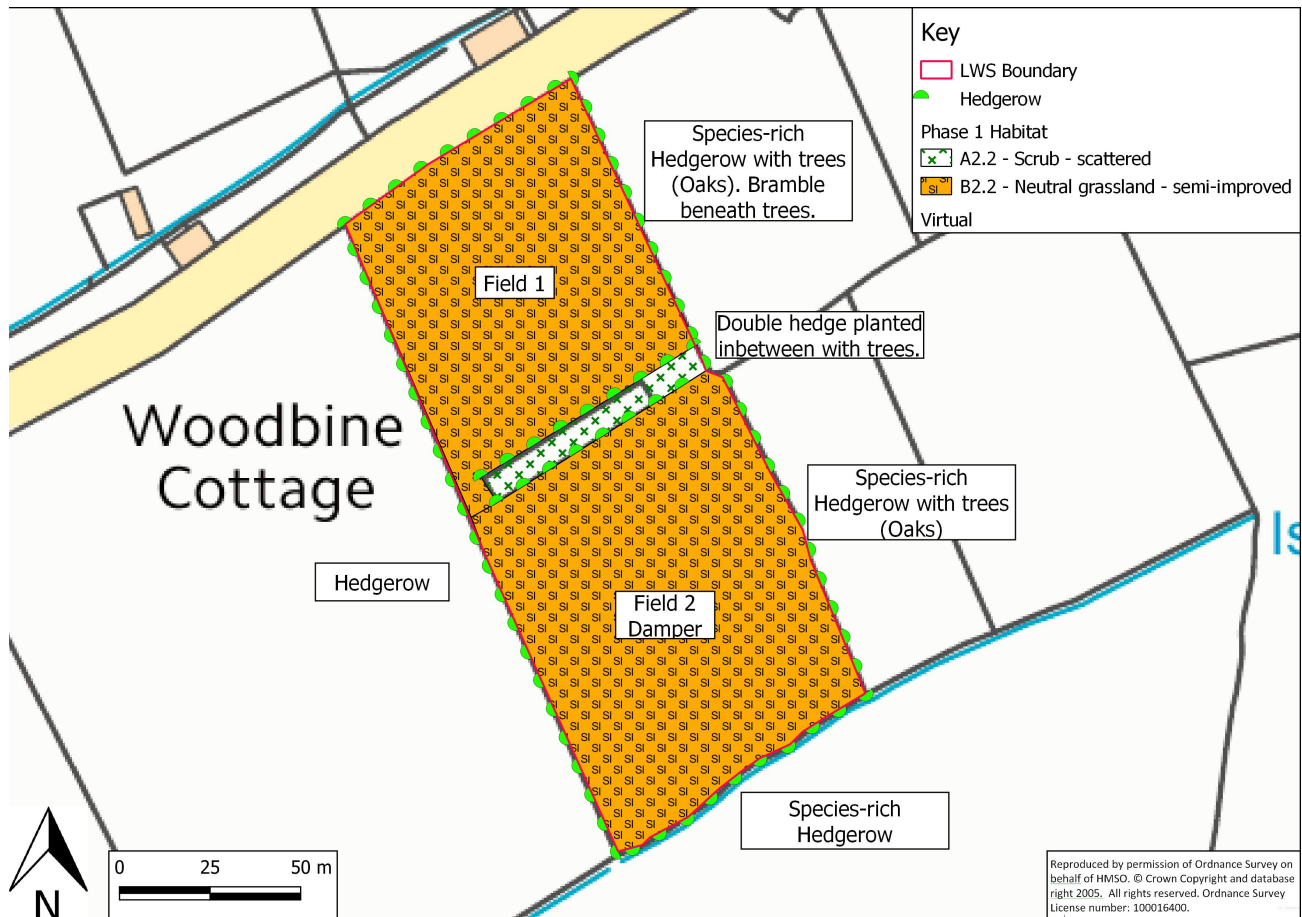

Please state the section(s) of the Wildlife Sites Guidance that this site qualifies under:

H4) Neutral Grasslands over 8 indicator species = Field 1 = 18, Field 2 = 14, Overall = 20
H7) Marshy Grasslands over 12 indicator species = Field 1 = 15, Field 2 = 12, Overall = 18

Is the site part of any grant schemes? Yes No Grant Scheme:.....End date.....

Does the site already have any designations? Yes No Designation:.....

Sketch map of site (including northpoint, scale and areas of the site of particular note):

Please list all additional survey information both past and present that relates to this site:
CCW Phase 1, 1991.

OFFICE USE ONLY

Site no.: WS/SO31/09

Please note: The data on this form may be held in accordance with the Gwent Wildlife Trust's registration under the Data Protection Act 1996

Key to colour coding of grassland species list

Species in **Bold** equals indicator species for Neutral grasslands

Species in **Blue** equals indicator species for Marshy grasslands

(Please note other species in list may be indicator species for other grassland types and these have been taken in to account when assessing overall value of the site).
