Site Code	Site Name	Grid Reference	Size	Main Habitats	LBAP Priority Habitats / Species	Full description	Wildlife Site Qualifying Features
WS/S04 0/02	Holly Meadow	SO473 037	0.52 ha	Neutral Grassland(M G5/MG6)	Species- rich Grassland (HAP)	The site is part of the larger Wildlife Site that includes fields to the north all with different landowners. This field is relatively level with dry neutral grassland. In the northeastern corner there is a pile of rubble. A gateway on the northern boundary leads straight into the adjacent species rich grassland. The field is bound by thick diverse hedgerows with a small orchard on the eastern side and the owners garden. In the past the field has been horse grazed but now it is cut for hay.	H4 Neutral Grassland
