WS/SO40/04	Ty -Harry - Meadow	SO446079	0.75 ha	Neutral Grassland	Species Rich Grassland (HAP)	<p>Old neutral meadow heavily encroached by bramble and bracken in places and in need of management. Located c.2.5km east of Raglan and situated next to ancient woodland (Ty - Harry Wood) which constitutes 3 of its 4 borders.</p> <p>Although a scrubby appearance, significant numbers of neutral grassland indicator species are present including scattered cowslips, common knapweed and birds foot trefoil. Four species of St Johns Wort were also recorded. Bracken encroachment is particularly significant at the west of the site (where the ground was formerly used for a small potato plot) and spear thistle is particularly abundant towards to the site's eastern side.</p>	H4 Neutral Grasslands
