WS/SO41/22	Talocher Court Field, Wonastow	SO487112	2.35 ha	Grassland, rank damp area, tree-line	Species Rich Grassland (HAP)	The field lies alongside the Monmouth to Wonastow road. A thick hedge lies alongside the field adjacent to the road. A wooden fence separates the field from another field closer to Wonastow (Talocher) Court and a line of trees runs along the eastern side of the field. There is a damp rank area at the north east end with young poplars. The interest of the field was in a large area of cowslips but eight other indicator species are present. About 30 years ago the field was arable but has developed interest over time. Plants along the hedgerow edge include <i>Hypericum hirsutum</i> and <i>Galium mollugo</i> .	H4 Neutral Grasslands
