WS/ST59/05	Parc Penterry Meadow	ST525938	1.37 ha	Neutral Grassland (MG5) Hedgerow Intact Scattered Scrub	Lowland Species-Rich Grassland (HAP)	Meadow on moderately sloping ground facing north east. Bounded by tall, overgrown hedges to north and east, recently laid hedge to west (also ancient stone wall borders site in places). Adjacent to recent urban developments - housing estates to north and south. There are 3 main areas/compartments to meadow. Area 1 is most diverse, comprising locally frequent Chives, Yellow-rattle, Common Bird's-foot-trefoil, Spring-sedge, Carnation Sedge and Devil's-bit Scabious, occasional Field Wood-rush and Common Knapweed. The other 2 sections are less diverse comprising frequent Yellow-rattle in Field 3 and Meadow Vetchling, whereas Field 2 comprised mainly rank grasses and Cow Parsley. Part of Field 1 was disturbed in preparation for a children's playground which is now on hold, but Broad-leaved Dock and invasive Japanese Knotweed now present. Owned and managed by the council - cut once a year in September.	H4 Neutral Grasslands
