**SITE OF IMPORTANCE FOR NATURE CONSERVATION**

# GWLYPTIR MYNACHLOG NEDD

## Site Description:

A large flat expanse of marshy grassland, lying north of the A465 adjacent to Neath Abbey. The site is bisected E-W by Neath Canal. The north side is now almost completely reedbed. Although the site has not been surveyed, from aerial images the following habitats have been identified: Rush Pasture, Purple Moor Grass, broadleaved woodland and scrub, canal.

## Qualifying features

H9:4 Reedbed  
H9:3 Purple moor-grass and rush pastures  
H16 Mosaic habitats - 3 main habitats at least H9:4 qualifies

## Important species

## Management Recommendations

The site is periodically grazed with cattle but other management/threats are unknown.

Last surveyed: North area 2015 Surveyor: ER Author: WJL

To be read in conjunction with Wildlife Sites Guidance Wales (WBP 2008) and the NPT amendments. This area has been designated as a Site of Importance for Nature Conservation by Neath Port Talbot County Borough Council. This does not formally protect the site or place any restrictions upon the landowner. Neath Port Talbot Council's Countryside & Wildlife Team will endeavour to support and encourage activities that maintain and enhance the biodiversity interest of the land; where funding is available, funds may be provided to facilitate these activities. The information given is used to ensure that nature conservation is taken into account in planning decisions. The designation itself does not confer any rights of access to the site and places no restriction on the management of the land.
