**SITE OF IMPORTANCE FOR NATURE CONSERVATION**

# LLANDARCY VILLAGE GREEN

## Site Description:

Part of the Llandarcy Conservation Area the site is mostly managed as amenity grassland but it is actually species rich even in the mown areas. The central area is typical purple moor-grass and rush pasture. Along the roadside there was formerly a drainage ditch of some kind and there is now a line of emergent vegetation.

## Qualifying features

H9:3 Purple moor-grass and rush pastures 15/12

## Important species

Species recorded: Bog stitchwort, Meadow vetchling, Greater bird's-foot trefoil, Southern marsh-orchid, Yellow iris  
Habitat suitable for: Great crested newt (terrestrial)

## Management Recommendations

Cut and rake central area once a year. Maintain mowing regime as required on amenity areas, no fertiliser.

Last surveyed: 2017 Surveyor: WJL Author: LEP

To be read in conjunction with Wildlife Sites Guidance Wales (WBP 2008) and the NPT amendments. This area has been designated as a Site of Importance for Nature Conservation by Neath Port Talbot County Borough Council. This does not formally protect the site or place any restrictions upon the landowner. Neath Port Talbot Council's Countryside & Wildlife Team will endeavour to support and encourage activities that maintain and enhance the biodiversity interest of the land; where funding is available, funds may be provided to facilitate these activities. The information given is used to ensure that nature conservation is taken into account in planning decisions. The designation itself does not confer any rights of access to the site and places no restriction on the management of the land.
